SALVADOR ASKS MEXICO TO INTERVENE

Hostilities in Central America Sought to be Checked—Mexico in Turn will Ask the United States to Assist in the Work.

City of Mexico, March 27.—Mexico has been at last requested to intervene and use her best efforts to bring about peace in Central America. The request came from the republic of Salvador and was made to President Diaz by Dr. Baltazar Estupinan, the minister to Mexico from Salvador. Minister Estupinan received a telegram from his government, saying Salvador was withdrawing all her troops from Honduras territory and was eager for peace.

Dr. Estupinan drove to the national palace and was granted an interview with President Diaz. What transpired is not known, but as a result of the conference a message

was immediately sent to Ambassador Creel in Washington by the president.

The contents of this dispatch were not made public, but it is stated on good authority that President Diaz has instructed Mr. Creel to join in the American government in a demand for the cessation of hostilities. Those here who are well informed on Central American affairs, believe that this move is the beginning of the end. Salvador has been an active ally of Honduras, and in requesting Mexico to step in and end the war, it is thought she has wished to let the world know that hereafter Honduras was to be left to her fate.

AMBASSADOR BRYCE VISITS NEW YORK

He is Amazed With the Progress of the City—In an Address He Predicts an Era of Pheromonal Prosperity.

New York, March 27.—James Bryce, the British ambassador, was the guest of the New York chamber of commerce yesterday. Many distinguished men were in the great gathering and the ambassador was given a warm welcome. Mayor Seth Low welcomed the ambassador. In reply, Mr. Bryce said:

"No one may visit New York without being struck with the amazing progress that has been made. There is no port through which so much commerce passes and no port into which so much commerce comes. At least one-half of the products of the United States go to other countries through the port of New York and one-third of the commerce from other countries through the same port.

"The increase in commerce is one of the most important of the ties that bind one country to another. Where there is interchange of commerce between countries, these countries are obliged to take an interest in each other's fortunes. Trade needs peace and trade needs security. I look upon such trade as exists between the United States and Great Britain

as a guarantee of good will, resting upon a material, as well as upon a sentimental basis."

Mr. Bryce then spoke about the oscillations in the market:

"The oscillations of stock securities are as inevitable as the change in temperature," he said. "All we can do is to treat them with serenity. I believe these oscillations which occasionally occur here do not affect the permanent prosperity or stability of great undertakings or commerce as a whole.

"They do not indicate anything unsound in the condition of the country. I believe there is no contingency which might arise which you cannot grapple with and this is ground for satisfaction for us in England as well as for you here.

"I suppose 30 or 40 years hence the population within 20 miles of the spot where we stand now, will be the largest aggregate population on the surface of the globe. There seems to be no end to the growth of New York.

"I rejoice as a friend and as a lover of America that I can look forward with confidence to an era of continued prosperity for you and of constantly expanding commerce.

SUNDAY EXCURSIONS WILL BE CONTINUED

Indianapolis, Ind., March 27.—At a conference of the heads of the passenger departments of the railroads entering Indiana and Ohio yesterday, it was decided not only to continue Sunday excursions this summer, but to make the rates lower than last year's schedules. The proposition to discontinue all Sunday excursions on account of two-cent fare legislation was defeated.

The Indianapolis-Cincinnati round trip rate will be \$1.75 instead of \$2. Cincinnati will begin excursions April 7. At other points April 14 will be the opening day.

GERMANY'S DESIGNS

Concerning New Territory will be Investigated by Roosevelt.

Washington, March 27.—Secretary Jay of the American Embassy to Constantinople has been ordered to Bagdad, Asiatic Turkey, to inspect the railroad being built by the Germans from the Mediterranean to the Persian gulf.

The action is important, as Germany is supposed to have designs on territory around the gulf and England would probably go to war to prevent Germany from getting a foothold there. Roosevelt wanted to be in touch with the facts so he sent Jay.

FOUR THOUSAND PEASANTS MARCH ON BUCHAREST

Roumanian Troops and Peasants Meet in Battle and Sixty are Killed and Three Hundred Wounded—Parliament Hastens to Take Action.

Bucharest, Roumania, March 27.—Reports have been received here of a regular battle between peasants and troops in the streets of Alexandria, Wallachia, about 50 miles from Bucharest. Sixty men were killed and 300 were wounded before the rioters were repulsed. Alexandria has been placed under martial law.

Four thousand peasants from the districts Teleorman and Vlaschia have joined forces and are now marching on Bucharest. A minor state of siege has been proclaimed here and the military authorities have taken measures to prevent the revolted peasants from invading the city. Should the peasants refuse to retire, orders have been issued to the troops to use shrapnel against them. Soldiers and large bodies of police have been stationed in the Jewish quarters of Bucharest for the protection of the inhabitants.

One thousand troops under the command of General Cornilescu have been concentrated in the vicinity of the capital for the protection against a peasant attack, and in the fear of such an occurrence, the royal palace has been surrounded with artillery.

Severe encounters, accompanied by much bloodshed, are reported from various places. The plundering usually appears to start at the synagogues, winding up with attacks on Christian property.

The district of Vlaschia is overrun by marauders, who have cut the telegraph and telephone wires. A band of 2,000 peasants Monday made a furious attack on a detachment of cavalry in that district. The troops only dispersed the rioters after killing or wounding many of them.

At Galatz, Moldavia, a mob of peasants invaded the town, demanding the land and wrecking houses. They were fired upon by troops, who killed 15 of the rioters.

A panic prevails at Giurgiu, opposite Rusechuk, 40 miles from Bucharest from whence urgent demands for reinforcements of troops have reached the city.

During the sitting yesterday afternoon of the chamber, Premier Sturdza appealed to parliament to assist the government in the difficult task of passing the urgent measures presented for the purpose of quelling promptly the peasant disorders. Ex-Minister of Finance Tonesco, on behalf of the Conservatives, then made a moving speech in which, in view of the alarming state of the country, he urged the house to unanimity on this pressing matter.

At the close of M. Tonesco's remarks, the chamber witnessed a dramatic incident. M. Sturdza and M. Tonesco, who for many years past have been bitter political opponents, shook hands effusively amid thunders of applause.

The sitting today was one of the most important ever held by the Roumanian parliament, and its close with the reconciliation of Mr. Sturdza and M. Tonesco is considered boding the solemnity of the occasion.

TAFT REPUBLICANS ACCEPT THE CHALLENGE

Foraker has Been Smoked Out and From This Time on it will be a Fight to See Who Captures the Ohio Delegation.

Washington, March 27.—Friends of Taft cheerfully accept Foraker's challenge, given to the press late last night.

Editor Taft, brother of the war secretary, made his formal announcement merely to smoke out Foraker. The issue is now clear. Foraker is a candidate for the presidency. He wants the endorsement of Ohio. He wants it this summer, in order to kill off the Taft boom.

If Ohio declares for Taft, he

stands a good chance of the nomination. If Foraker is endorsed by Ohio he will still have the opposition of Roosevelt republicans in other states to encounter. Roosevelt is for Taft. There is no doubt about the president's position. He is not taking an aggressive position, of course, but is doing all possible to point to Taft as his choice.

Prominent Ohio politicians, not identified with the machine, are to be called to Washington to tell of Ohio's sentiment.

THE FEVER BREAKS OUT

Famishing Chinese Afflicted With Disease Have Resort to Cannibalism.

Shanghai, March 27.—The famine stricken Chinese have been practicing cannibalism in localities where the distress is most acute. The spread of fever continues and the heavy rains are increasing the general misery. Large orders for grain have been placed in America, Australia

and Manchuria.

Lonkin China, March 27.—Tales of cannibalism continue to come from the famine district. At Hua a child was killed by a cart in the streets. The body was seized and carried away.
